

Accurate, Affordable,
Quick Turnaround

PLANREVIEW@BUILDCOMPLIANT.COM | 480.489.2692

Benefits: REScheck vs. DSCC Review

Standard REScheck by Designer	DSCC Review
<ul style="list-style-type: none"> Free; only cost is time 	<ul style="list-style-type: none"> \$0.10/conditioned ft²
<ul style="list-style-type: none"> Accurate if used correctly 	<ul style="list-style-type: none"> Guaranteed accurate
<ul style="list-style-type: none"> Uses R-Value to show compliance 	<ul style="list-style-type: none"> Ability to evaluate R-Values for all parts of assembly including air gaps and OSB
<ul style="list-style-type: none"> Modeling strictly based off of U-Value and SHGC 	<ul style="list-style-type: none"> Utilizes U-Value, SHGC, overhangs, adjacent shading (i.e. deciduous trees) and roller shades
<ul style="list-style-type: none"> Can determine “% Better Than Code” 	<ul style="list-style-type: none"> Can determine the most cost effective and realistic solutions to meet code
<ul style="list-style-type: none"> Redlines are handled by architect 	<ul style="list-style-type: none"> Redlines handled by DSCC
<ul style="list-style-type: none"> Submits documentation “as is” 	<ul style="list-style-type: none"> Submits documentation with “Letter of Intent” stating the chosen pathway of compliance (i.e. Prescriptive/Performance)
<ul style="list-style-type: none"> Varying expertise with respect to energy efficiency 	<ul style="list-style-type: none"> Certified RESNET HERS Rater
<ul style="list-style-type: none"> Can place unrealistic importance on R-Values and ignores construction materials 	<ul style="list-style-type: none"> Evaluates construction materials based on thermal properties to help design a project that actually performs
<ul style="list-style-type: none"> Varying knowledge with HVAC design and installation 	<ul style="list-style-type: none"> Knowledgeable and able to consult with HVAC contractor on required documentation and features (i.e. fresh air ventilation per ASHRAE 62.2 + Manual J, D, S)
<ul style="list-style-type: none"> TESTING: Varying knowledge with respect to required 3rd party testing (2012 IECC only) 	<ul style="list-style-type: none"> TESTING: Has ability to generate testing targets, perform the required testing and submit documentation for approval to local municipality
